Review of the company's operations

The year 2018 was characterised by the floating of the company on the Malta Stock Exchange and as expected, the company has been through a variety of changes and developments. To name a few, the Board composition has seen the resignation of four of the previous directors, the appointment of three independent non-executive Directors and the appointment of a new company secretary. The newly constituted Board reflects a profile of entrepreneurship and expertise in various sectors, including business development, retail, marketing, management, business advisory, legal, banking and auditing amongst others. Needless to say, the company has also seen significant changes on the corporate governance side with the constitution of the audit committee and of the nominations committee, as well as sub-committees which support the Board.

Throughout the year Main Street Complex retained 94% occupancy. The completion of the civil works on Pjazza Antoine de Paule, ongoing management and marketing initiatives as well as the enthusiasm of the retail tenants, contributed to attracting a record number of visitors and shoppers to the shopping complex. After having welcomed the ten millionth visitor since the opening of Main Street, this record footfall was yet another remarkable achievement. The installation of solar panels in the final quarter of the year will not only lead to the sale of the energy generated to the grid, but also to affirm the company's credentials in active participation in green initiatives.

The company generated revenues of €742,341 (2017: €734,292) in line with the previous year. Operating expenses remained generally unchanged, however administrative expenses rose primarily as a result of costs related to the company's Stock Exchange listing, while increased depreciation charges reflected capital expenditure incurred during the year. The overall result was a decrease in operating profit to €484,805 in 2018 compared to €526,027 in 2017, as anticipated. This decline was mitigated by lower financial costs amounting to €45,687 (2017: €111,697) due to the full repayment of the company's bank loan facilities, resulting in profits before taxation amounting to €439,371 (2017: €415,944), an increase of 5.6%, in line with expectations.

Inflows resulting from the Initial Public Offering were applied towards the repayment of all bank loan balances and amounts owed to former group companies. This equity transaction elevated the company's Balance Sheet to one with a strong capital base and an enviable debt-free position. The consequent absence of debt servicing and repayment obligations means that while the company can pay out all net distributable profits earned during the year, its cash resources were not depleted since the depreciation charge exceeded its capital expenditure for the year.

An interim net dividend of €121,768 was distributed by the company in September 2018, and the Directors recommend the payment of a final net dividend of €190,163.

The year 2018 was a positive year for the company with high and sustained tenant occupancy levels, increases in footfall over the previous year, and new initiatives that led to an improved customer experience at the shopping complex. The year 2019 augurs well in view of a robust economic environment, footfall levels that continue to show improvement, the expectation of achievement of full occupancy and further reductions in financial costs.
