Adoption of new standards, amendments and interpretations to existing standards that are mandatory for accounting period beginning on 1 January 2019 did not result in changes to the Company's accounting policies and did not require retrospective adjustments.

*Fair value of land and buildings*

The Company's land and buildings were last revalued at 31 December 2017. The book values of the land and buildings were adjusted to the revaluations and the resultant surplus net of deferred income taxes was credited to the revaluation reserve in the shareholders' equity. The directors have reviewed the carrying amount of the Company's land and buildings as at 30 June 2019, and no adjustments to the carrying amount was deemed necessary as at that date.

### 3. Property, plant and equipment - continued

#### *Fair value of land and buildings - continued*

The Company is required to disclose fair value measurements by level of the following fair value measurement hierarchy for non-financial assets carried at fair value:

- Quoted prices (unadjusted) in active markets for identical assets (level 1).
- Inputs other than quoted prices included within level 1 that are observable for the asset either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2).
- Inputs for the asset that are not based on observable market data (that is, unobservable inputs) (level 3).

The Company's recurring fair value measurements as at 30 June 2019 are categorised as level 3 as they are based on significant unobservable inputs. The Company's policy is to recognise transfers into and out of fair value hierarchy levels as of the beginning of the reporting period. During the six-month period ended 30 June 2019 there were no transfers between the fair value levels. The Company's land and buildings represent only the Main Street Complex and their current use equates to the highest and best use. A reconciliation between the opening balance and the closing balance of the property's carrying amount is presented in the table above. The movement reflects the depreciation charge for the six-month period ended 30 June 2019.

#### *Valuation process and techniques*

The Company's property is valued on periodic valuation by the directors after seeking professional advice from independent professionally qualified valuers who holds a recognised relevant professional qualification and have the necessary experience in the location and segments of the property being valued. When external valuations are carried out in accordance with this policy, the valuer reports directly to the board of directors and discussions on the valuation technique and its results, including an evaluation of the inputs to the valuation, are held between these parties.

At the end of every reporting period during which an external valuation is not carried out, the directors also assesses whether any significant changes in actual circumstances, income streams, results and developments have been experienced since the last external valuation. An adjustment to the carrying amount of the property is only reflected if it has been determined that there has been significant change.

The valuation was determined using discounted cash flow projections considering, *inter alia*, the projected future earnings from the Main Street Complex, in the main based on current rental contracts, its ongoing maintenance needs, and other relevant market factors. Accordingly, the significant unobservable inputs applied in the Company's valuation are the following:

- Earnings before interest, tax, depreciation and amortisation (EBITDA): which is based on the Company's existing rental income streams less operating costs (before depreciation) which include marketing and maintenance expenses. The EBITDA for the six-month period ended 30 June 2019 is estimated at €308,052 (30 June 2018: €291,165).
- Growth rate, at an average of 2.5%: represents the estimated average growth of the Company's rentals.
- A discount rate of 6% to 7% was applied in estimating the net present value of the projected operating future cash flows of the property. This discount rate is principally based on the weighted average of the cost of debt, current market risk free rates, an equity market risk premium and other risk premiums attached to an investment in the property being valued including any element of projection risk inherent in the projected future cash flows.

Generally, an increase in the EBITDA and the growth rate will result in an increase to the fair value of the property. Conversely, a lower discount rate will give a higher fair value.

#### 4. Share capital

On 11 April 2018 the Company's issued share capital was increased from €1,395,487 divided into 1,395,487 shares of a nominal value of €1.00 each to €1,415,385 divided into 14,153,850 shares of a nominal value of €0.10 each. The Company re-denominated the nominal value of its share capital from €1.00 to €0.10 and carried out a bonus share issue whereby a total of 198,980 shares of a nominal value of €0.10 per share were issued to its shareholders at a par value of €0.10 per share through the capitalisation of €19,898 out of the share premium account.

Subsequently 5,230,769 shares with a nominal value of €0.10, were newly issued at an offer price of €0.65 per share, for a total amount of €3,400,000.

#### 5. Commitments

*Operating lease commitments - where the Company is the lessor*

The future minimum lease payments receivable under non-cancellable operating leases are as follows:

	30 June 2019 € Unaudited	31 December 2018 € Audited
Not later than 1 year	629,056	601,359
Later than 1 year and not later than 5 years	1,673,983	1,566,677
Later than 5 years	365,691	489,120
	<b>2,668,730</b>	<b>2,657,156</b>

#### 6. Dividends

On 28 August 2019, the Board of Directors of the Company resolved to distribute a net interim dividend of €161,000 (2018: €121,787). ## Independent auditor's report

To the Board of Directors of Main Street Complex p.l.c.  
Report on review of condensed interim financial statements

### *Introduction*

We have reviewed the accompanying condensed interim statement of financial position of Main Street Complex p.l.c. (the Company) as at 30 June 2019, the related condensed income statement and statement of changes in equity and cash flows for the six-month period then ended and notes, comprising a summary of significant accounting policies and other explanatory notes ("the condensed interim financial statements"). The Directors are responsible for the preparation and fair presentation of these condensed interim financial statements in accordance with International Financial Reporting Standards (IFRSs) as adopted by the EU applicable to interim financial reporting (International Accounting Standard 34 "Interim Financial Reporting"). Our responsibility is to express a conclusion on these condensed interim financial statements based on our review.

### *Scope of review*

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of condensed interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

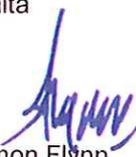

This report, including its conclusion, has been prepared for the Company for the purpose of the Listing Rules of the Malta Financial Services Authority and for no other purpose. We do not, in producing this report, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

### *Conclusion*

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed interim financial statements are not prepared, in all material respects, in accordance with International Accounting Standard 34 "Interim Financial Reporting".
